**Subject:** Re: Parks Department Use of Ranger Cabin for Annual Trail Survey

Dear Ms. Knope,

In response to the deluge of requests that you have sent us over the last two years, we have ultimately decided to reverse our previous decision to ban the Department of Parks and Recreation from using our ranger cabin in Slippery Elm Park. We will now return to our previous position of allowing the department to use the cabin for one weekend of the year for their annual trail survey/hunting trip. This decision is contingent on the fact that you stop sending us messages about this subject via email, mail, fax, telephone, skywriting, and carrier raccoon. Please do not reach out to us again to discuss this subject further.

Best regards,  
Pawnee Park Rangers
